

DIRECT VENT GAS FIREPLACES

TRADITIONAL - FRONT OPEN

Things to Consider When Selecting Your Astria Direct Vent Fireplace

ASTRIA TRADITIONAL DIRECT VENT GAS FIREPLACES

Traditional Direct Vent Gas Fireplaces offer the best in beautiful log & flame presentation, the convenience of clean burning gas and the efficiency of a sealed combustion system. Direct Vent fireplaces utilize a special double wall vent system that brings outside air into a sealed fire-box for burning, and exhausts the flue gases back outside through natural convection. Couple this with heat circulation of room air and you also have an efficient heater, even in power outages. Enjoy beautiful, safe and efficient fires with the flip of a wall switch or the touch of a remote.

Astria offers a wide selection of Traditional Direct Vent Gas Fireplaces in a variety of sizes and options. Use the guide below to help you choose the fireplace that best meets your design and heating needs.

STANDARD + OPTIONS OR FULLY FEATURED DLX MODELS

- ♦ **STANDARD MODELS:** Come with painted black interiors, detailed logs and tempered glass fronts. Optional upgrade accessories include a variety of ceramic fiber brick style or reflective porcelain enamel interior liners, heat circulating blower, hand held remote controls and wall switch kits.
- ♦ **DLX MODELS:** Are fully featured and come complete with high-definition logs, interior illumination, a variety of ceramic fiber brick style or reflective porcelain enamel interior liners, ceramic glass, higher heat production and efficiency, heat circulating blower and a hand-held multi-function remote control.

OPENING & DEPTH SIZES TO FIT YOUR ROOM

- ♦ **OPENING WIDTHS:** 33", 35", 40" or 45" models allow you to choose a size that is proportional to the room and finished facing materials.
- ♦ **FIREBOX DEPTHS:** Compact 14" or Mid-size 17" deep models save floor space while Full-size 21" deep models offer a larger fireplace interior and log arrangement.
- ♦ **COMMON FRAMING:** All models of similar model size utilize the same framing width and height dimensions for the ultimate in design flexibility.

GLASS FRONTS FOR DECORATIVE OR HEATING APPLICATIONS

- ♦ **TEMPERED GLASS:** Is the standard for decorative fireplace applications. Its reflective quality keeps more heat in the fireplace and less heat radiating into the room.
- ♦ **CERAMIC GLASS:** Is transparent ceramic and can withstand higher firebox temperatures. Ceramic glass allows heat to radiate into the living space, making it the preferred choice when additional room heat is desired.

VARIETY OF CONTROLS TO CHOOSE FROM

- ♦ **MILLIVOLT CONTROLLED MODELS:** Feature continuous safety pilot operation with matchless pushbutton ignition and are remote control ready to accept a variety of optional hand-held remote and wall controls.
- ♦ **ELECTRONIC IGNITION CONTROLLED MODELS:** Fuel saving electronic intermittent (IPI) safety pilot with battery back-up or continuous (CPI) safety pilot mode for cold weather applications and are remote control ready to accept a variety of optional hand-held remote and wall controls.

FLEXIBILITY WITH MULTIPLE VENTING OPTIONS

- ♦ **REAR VENTING:** Allows for minimal venting runs for outside wall installations.
- ♦ **TOP VENT HORIZONTAL:** Go up then out for interior room and below grade installations.
- ♦ **TOP VENT VERTICAL:** For interior room installations where through the roof is the best option.

WARRANTY

- ♦ **LIMITED LIFETIME WARRANTY:** Included with all Astria models.

IMPORTANT NOTES:

As with any fireplace, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation, wind, vent configuration and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, climate, condition and type of fuel used, appliance location, burn rate, accessories chosen, chimney installation and how the appliance is operated.

Diagrams, illustrations and photographs are not to scale—consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.
